- Please leave with the same number of students that you brought!

A note to our "regulars" - As you know, we have been charging \$3.50 per student for a number of years. Costs of staffing and materials have been rising, so in order that we will not have to raise the tour cost per child, we are eliminating our usual reduced cost for parent helpers. At this time, everyone taking the tour will pay \$3.50. We hope this will help us recoup some costs, but not add to the financial hardship our schools are experiencing. Thank you for your understanding.
